SAGE AND SULPHUR DARKENS GRAY HAIR

Brush this through faded, streaked locks and they become dark, glossy, youthful.

Almost everyone knows that Sage Tea and Sulphur, properly compound-ed, brings back the natural color and lustre to the hair when faded, streaked lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and trouble-some. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

proved by the souther of other ingredients, at a small cost.

Den't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this seft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful tollet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure mitigation or pretended for the cure, mitigation or pre-vention of disease.

SUPREME TASK OF CHRISTIAN CHURCH TO WORK TO WIN MEN TO CHRIST

The pendulum is swinging back to pastoral and personal evangelism and the whole world is looking to the church of the living God, declared Rev. Dr. Charles L. Goodell of New York in his sermon Monday night at the United Congregational church in opening the series of meetings at which he is to speak under the auspices of the Young Men's Christian association and the Protestant churches of the city. There is a wide and increasing interest in Christian work throughout the country and it is the suwages is one thing but it is better to

Alexander H. Abbott made a brief statement in behalf of the ministers of the diurches, in which he acknowledged their gratitude to the Young Men's Christian association for its initiative in bringing Rev. Dr. Goodell here for a series of meetings so full of hore.

President James C. Macpherson of the association spoke briefly in explaining that the meetings were made possible through the use of a fund given to the association by Miss M. Louise Sturtevant, a member of the United church, for intensified religious work in this city. President Macpherson announced that Dr. Goodell had agreed to speak on the four afternoons he will be here as well as on the evenings, and that the first afternoon meeting will be held today (Tuesday) at 3.30, when his subject will be Religion in the Homes and that mothers are especially asked to attend this meeting.

The questions of the day are not financial and social but spiritual, said Dr. Goodell in his opening words, Business needs the Holy Spirit, faith and prayer. Herbert Hoover says we need evangelism. The question is, Have we a church big enough to face this condition and bring triumph to human brother-head? You want wants or sain or plare. good? You may weave or spin or plant siood? You may weave or spin or plant to pay expenses but your business is to serve God. Men are seeing this new rision and are kindling to it. Jesus said My church, I will build it. The church of the living God will stand forever, supreme over the week of all human matter, of all worlds. This church of matter, of all worlds. This church of the living God, not your church or my
